## Drawing Australian Animals

To get started, you will need blank paper and a pencil. Choose an animal and draw the first piece shown in black. Then slowly add the lines shown in gray in the next picture until your drawing is complete.

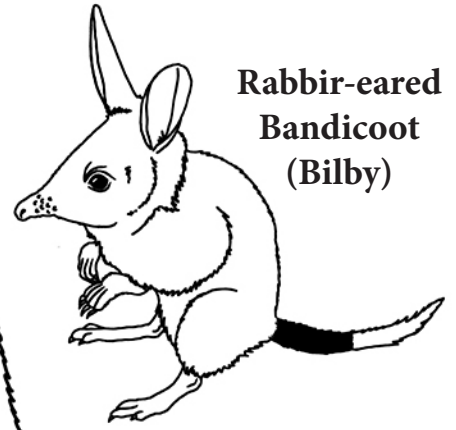

Use your new drawing skills to create posters and murals. To create a mural, practice drawing each of the animals you will include. Do a sketch of the mural on a large piece of paper to decide where you want each of your animals to be placed in the mural. When you are ready, draw them lightly in pencil at a larger scale on your mural surface. When you have your animals placed on your mural surface, you can pencil in the background trees and plants. Then apply the paint, marker or other medium you plan to use for your mural display.
