

African Black-footed Penguin

Spheniscus demersus

They weigh about 6.6 pounds (3kg) and are about 18 inches (45 cm) tall.

They have an arching black line across the chest.

They are black on back and white on the front (belly and chest) with some random black spotting.

Their head is black with a prominent white stripe that winds above the eye, around the cheek and under the chin and down to the “armpit”.

They have black feet.
