

Paper Plate Life Cycles

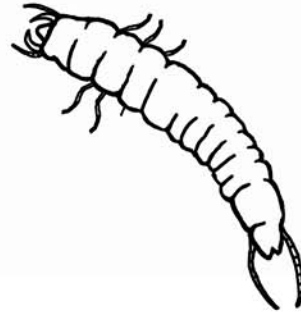

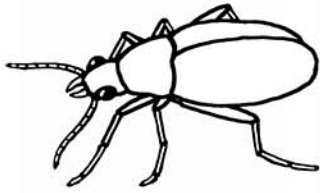

Cut out the template below, glue it to a paper plate to use as a base for building a 2D Model of a life cycle. Choose one of the accompanying Life Cycle Stages and have students color them, cut them out and glue them in correct order on their template. Then fill in the names of each stage and the name of the organism, who's life cycle they are depicting.

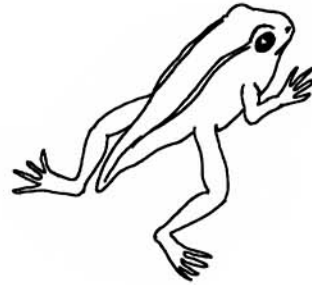

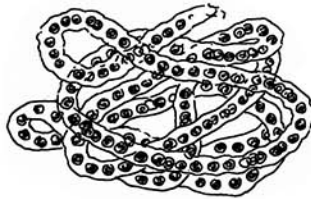

Paper Plate Life Cycles Stages

Color and cut out the life cycle stages of five animals and plants and paste them in the correct order on the Paper Plate Life Cycle template.

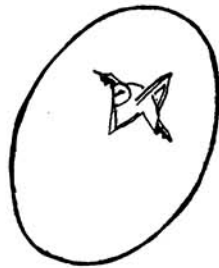

BEETLE

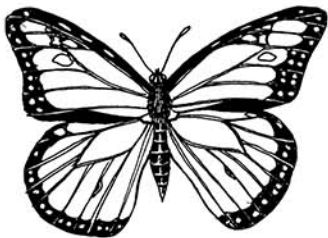

FROG

BIRD

BUTTERFLY

BEAN PLANT
